Location: Seattle, WA

EXPERIENCE

- **SonderMind, Inc** Remote/Denver, CO
Senior Applied Statistician, Applied Science Team Mar 2023 - Present
 - Developed and implemented an advanced dynamic modeling system to augment behavioral healthcare technology services, facilitating real-time access to measurement-based care insights for clinicians.
 - Utilized machine learning and Bayesian methods to analyze and interpret the temporal relationships among treatment strategies, patient engagement, contextual factors, and health outcomes.
 - Designed and executed a reinforcement learning-based framework to enhance online advertising effectiveness and optimize paid search strategies, resulting in measurable improvements in marketing ROI.
- **Mindstrong, Inc** (acquired by SonderMind) Remote/San Francisco, CA
Senior Applied Statistician, Applied Science Team May 2022 - Mar 2023
 - Engineered a personalized recommender system using matrix factorization, integrating an Individual Correction Index (ICI) for tailoring recommendations to patient clinical symptom profiles.
 - Developed a robust anomaly detection framework by combining classical statistical methods with machine learning algorithms, significantly enhancing the monitoring of patients' smartphone usage data and clinical therapy efficiency.
 - Applied a mix of traditional statistical models and machine learning techniques to optimize preventative and interventional treatments, leading to improved patient outcomes and treatment efficiency.
- **Fred Hutchinson Cancer Center** Seattle, WA
Senior Statistician Nov 2018 - Apr 2022
 - Pioneered the application of advanced statistical and machine learning techniques for the analysis of clinical trial data, fitness tracking data, and EHR for cancer survivors, leading to actionable insights and enhanced patient care strategies.
 - Led the development of research protocols, experimental designs, and was instrumental in manuscript drafting and data management, significantly contributing to the center's research output and efficiency.
- **UC San Diego Health** La Jolla, CA
Statistician/Biostatistics Manager Sep 2015 - Oct 2018
 - Headed the statistics unit within the Head & Neck Clinical and Translational Research Lab, driving the strategic application of statistical analyses in clinical research.
 - Implemented machine learning algorithms and data visualization techniques to analyze medical image data and large-scale clinical trial data, yielding critical insights for clinical decision-making.
 - Authored research manuscripts and effectively communicated complex statistical findings to a diverse range of stakeholders, enhancing the impact and reach of research outcomes.

EDUCATION

- **University of California San Diego** La Jolla, CA
M.S. in Statistics / Ph.D. in Biostatistics (not completed) Sep 2013 – Mar 2018
- **Xiamen University** Xiamen, China
B.S. in Computational Mathematics Sept 2009 – Jun 2013

PROGRAMMING SKILLS

- **Principal Languages:** Python, SQL, Java, R, Matlab
- **Tools/Frameworks:** Databricks, AWS (EC2, SageMaker), R Shiny, Jupyter, Git/Github/GitLab
- **Specialization:** Experimental Design, Bayesian Methods, Longitudinal Data Analysis, Machine Learning/Deep Learning (scikit-learn, TensorFlow, PyTorch, etc), Data Visualization (ggplot2, Matplotlib, Seaborn, etc)
